REQUEST FOR QUOTATIONS - CONSTRUCTION

A. PRICE

The Contractor shall complete all work, including furnishing all labor, material, equipment and services required under this purchase order for the following firm fixed price and within the time specified. This price shall include all labor, materials, all insurances, overhead and profit.

Total Price (including all labor, materials, overhead and profit)	
---	--

A.1 VALUE ADDED TAX

VALUE ADDED TAX (VAT). The Government will not reimburse the Contractor for VAT under this contract. The Contractor shall not include a line for VAT on Invoices as the U.S. Embassy has a tax exemption certificate with the host government.

B. SCOPE OF WORK

The character and scope of the work are set forth in the contract. The Contractor shall furnish and install all materials required by this contract.

In case of differences between small and large-scale drawings, the latter will govern. Where a portion of the work is drawn in detail and the remainder of the work is indicated in outline, the parts drawn in detail shall apply also to all other portions of the work.

1. Description of Work

U.S. Consulate Adana is seeking for proposal of renewal of existing car wash station for the compound located in Güzelevler Mahallesi 212, Yüreğir, Adana, Turkey. Contractor shall provide all labor, materials, and equipment necessary to demolish, furnish, erect, design and install all items listed below in accordance with Unified Facilities Criteria and other applicable UFC's at <http://www.wbdg.org/ffc/dos>, National Fire Protection Association (NFPA), National Electric Code (NEC), Occupational Safety Health Administration (OSHA), Turkish Occupational Safety Health Law (ISGK 6331), OBO Building Codes (OBO), Turkish Standard Institute (TSE) Regulations.

Contractor is responsible for identifying differing site conditions to the government in writing. Contractor shall adhere to all construction codes that are in standard use on Adana Consulate Compound, and which govern work to be executed under this project. The contractor is also responsible for providing overall well working facilities and including items, which may not be specifically stated but are essential to the construction of such facilities. Any changes suggested by the contractor to the statement of work require approval from the contracting officer before acceptance is given for a recommended change. In the event of conflict between statement of work, drawings, and specifications, the most restrictive shall govern.

The contractor is solely responsible to provide the government a 'complete and useable' facility or product IAW the scope of this project.

The contractor shall submit final drawings to OBO (Overseas Building Operations) design office through Facility Maintenance and get final design approval for OBO Building Permit. NTP will be issued after OBO Building permit obtained. The contractor cannot claim any fee's against to Government for the process to obtain OBO Building Permit.

Any government 'approvals or signatures' of the contractor's submittals or shop drawings in no way represents the government's 'verification' of the quality or accuracy of the contractor's shop drawings. Any, and all, problems encountered during the construction performance period of this contract that are a result of design errors or design omissions by the contractor - are solely the responsibility of the contractor to resolve and correct at no additional cost to the government.

The project includes: Dismantling of existing car wash station structure with equipment inside of existing wash station and site preparation and excavation works, new concrete pads, new canopy structure for wash station and it is equipment including all connections for electrical, water and sanitary sewer to make this facility complete and usable.

2. Work Tasks

2.1. Contractor shall conduct topographical survey including top and bottom of ditches, invert and rim elevation of utility manholes, trees, pipes that protrude from the ground and any other features/structures that exist above/underground at 10 m by 10 m grid points for construction area.

- a. Survey coordinates shall be based on WGS 84, Zone 36 North [horizontal control].
- b. Use GPS equipment for all surveys and submit GPS baselines processing report. Where GPS cannot be used (e.g. next to obstructions), contractor shall use an optical total station. The resulting survey data shall be submitted in both AutoCAD
- c. Tolerances: Horizontal and vertical control dimensions, plus or minus 25 mm (0.10 foot). Angular control, plus or minus 0 degrees 01 minute.

2.2. Contractor shall demolish existing concrete pavements.

2.3. Contractor shall excavate or backfill new concrete area to provide proper structure and drainage system after topographical survey.

2.4. Contractor shall be responsible for conducting their own utility markings. Government resources shall not be used for utility locates. Contractor shall provide their own underground utility detection equipment to include but not be limited to electric cable detectors, ground penetrating radar, etc. Contractor shall open test pits for eyes-on verification of underground utility locations, prior to start of demolition/construction

2.5. Site building to minimize rerouting of utilities. Utilities cannot remain under building slab or sidewalk. Any existing utility that remains under the new facilities shall be relocated by the contractor. Contractor shall provide a drawing for any intersection.

2.6. Contractor shall dismantle all existing equipment and structure in existing car wash station. Contractor shall demolish existing concrete pavement where the car wash station is. Existing catch basin manhole shall stay as is but needs to be adjusted according to new elevation.

2.7. Contractor shall construct one open large bay shall be around 8.20mx8.10m. The work shall include excavation of topsoil, the refill works and compaction. Compaction shall be in accordance with ASTM D-698 Standard Proctor in minimum. The finish level of the paved area shall be same texture as surrounding area.

2.8. A reinforced concrete wall c/w its foundation shall be built rear side of car wash station. The length of the wall shall be 10.20 meters. The height of the wall shall be 1.2 meters above finished surface.

2.9. Contractor shall construct new reinforced concrete drainage channel c/w heavy-duty cast-iron gratings as shown on concept drawings. Reinforced steel dowels will be used at joints and contractor shall form a ledger (or shelf) on the sides of the new concrete drainage channels to support the adjacent concrete paving. The ledger would help maintain alignment of the top surfaces at the joint (maintaining drainage paths, as well as preventing offsets causing tripping hazards and vehicle impact wear on the channel). Pavement slabs at these locations shall be evaluated for the ledger support condition and, if needed, thicken the edge and/or reinforce the affected area to bridge expected subgrade (backfill) settlement adjacent to the channel. Rim elevation of the gratings will be flush with the new pavement and the base of the drainage channel will be adjusted to provide a minimum of 0.5% slope for proper drainage. SN8 type triplex corrugated drainage pipes will be connected to the edge of the drainage channel and the water will be discharged to existing catch basin.

2.10. Contractor shall provide and install heavy-duty type grease traps before tied into the existing sanitary system. Contractor shall provide a drawing which shows connection of new drainage trenches to suitable oil/water separator and on to sewer. The contractor shall verify the system to be provided is suitable for use to catch hydrocarbon residues coming off of the vehicles that are being washed.

2.11. Existing drainage manhole level shall be adjusted according to new concrete pad elevation.

2.12. The contractor shall fabricate and install the steel structure covering the car wash equipment. The contractor shall submit shop drawings for new footings and structural members. Existing slab shall be demolished. Contractor shall remove existing concrete pavements complete with base courses as shown on reference only drawings. Contractor shall replace minimum 45 cm thick existing base course material with new 100% compacted aggregate base course material. Contractor shall place the new concrete slab and its underlayers in accordance

with given drawings. Concrete class shall be C30 minimum. New pavement should have elevations with a proper surface drainage. If curing compound is used, contractor shall provide minimum 24-hours water cure, before applying curing compound. Refer to Design and Control of Concrete Mixtures, Portland Cement Association, to determine proper placement and curing procedure, according to weather conditions. Contractor shall install dowel between slabs. Contractor shall provide and submit for approval suitable material for dowel bar (20mm) cap used in expansion joint, prior to start to work. If Contractor shall damage the any other concrete pavement while performing saw-cut or partially repair, contractor must replace the pavement joint to joint.

2.13. Contractor shall seal all joints with appropriate sealing material for all new concrete pavements. Sealing material should be oil & fuel resistant type self-leveling (SONOMERIC or equal).

2.14. Elevating the top of the concrete pier (and lowest portions of the steel framing) above the finished grade to further mitigate corrosion of structural steel. Ensure minimum concrete cover for reinforcing steel in concrete piers is provided to address the environmental conditions, per ACI 318, as referenced by the OBO Building Code.

2.15. The contractor shall submit shop drawing showing details and plan for electrical work be submitted for review and approval by USG prior to start of construction.

2.16. The contractor shall be driven grounding electrodes prior to installation of footers. Ground fault protection (or equivalent RCD protection should be included for all circuits mounted to or installed in connection with new canopy structure. Building steel should be bonded to new grounding electrodes and to equipment grounding conductor pulled in with circuits serving the new structure.

2.17. Provide details for typical steel connections on drawings. Note bolt sizes and quantities, weld details with dimensions, edge distances and spacings of connectors, thicknesses of steel plates and stiffeners.

2.18. The Contractor shall inspect existing shading units. The Contractor is solely responsible for providing manufacturing and construction services, and contract coordination, and supervision necessary to meet the requirements of this contract within the established schedules.

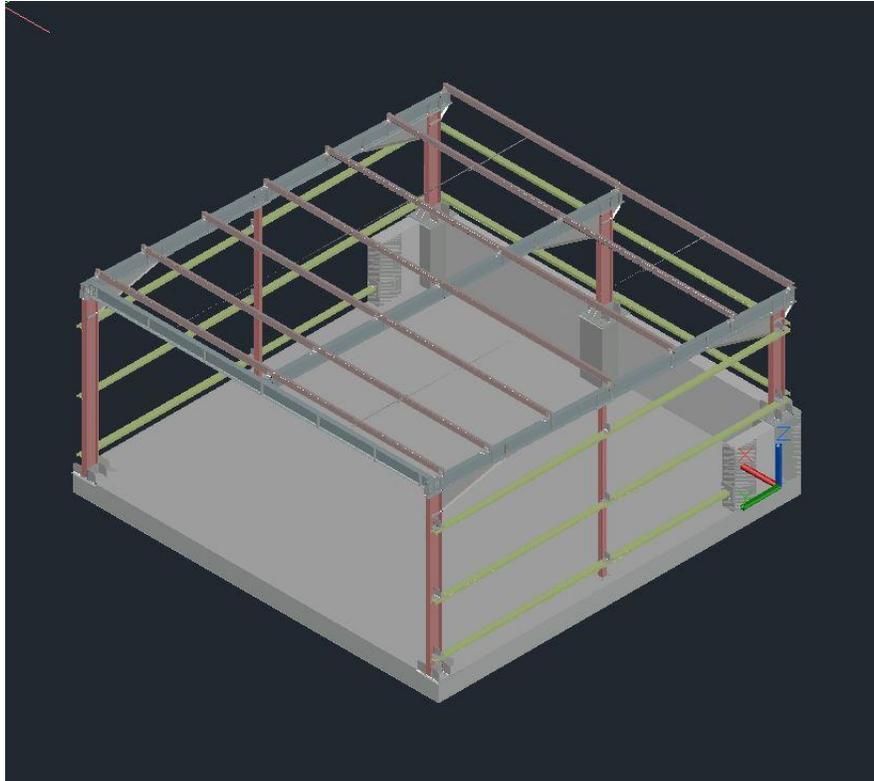

2.19. The contractor shall be responsible for the correct locations, size, and proper construction and/or manufacturing of all things. In the absence of special drawings or information, contractor shall obtain all the necessary information from the proper sources proceeding with any work, which may be affected thereby.

2.20. There will be one structure:

Structure to be 8.10 meters deep (out from new reinforced wall) x 8.20 meters long, 3.20 meters clearance for entry height to cover car wash space.

Contractor shall submit calculations and a shop drawing for the sections.

- The minimum clearance of the shed shall be 3.20 m.
- Roof of steel structure shall be covered with corrugated sheet metal (0.7 mm thick) and shall have overlap on the existing parking lot structure.
- The whole steel structure shall be coated with proper paint. Finish - Ensure each coat of paint is uniform in color, gloss, thickness and texture and free of runs, sags, blisters, visible roller marks, or other discontinuities. Final paint shall be applied in two coats and according to the instructions of selected finish color paint (match with the new canopies). Allow each coat to harden for the drying time (or time between coats) recommended by the manufacturer. Finish coat shall be Polyurethane Topcoat 150 g/l. Color code shall be RAL 1015 to match with existing structure. Using lead-based paint is strictly prohibited.
- Contractor shall remove existing cross on one of the parking lots and install new linear support with box profile.
- Sides of steel structure will be covered with PIR type polyurethane micro lined (0,67 – 0,11 W/m²K) sandwich panels. (Core Thickness: 50 mm, Outer and Inner Metal Thickness 0.50-0.50 – Factory Painted) c/w all flashings Teknopanel or approved equal)
- Contractor shall remove all existing stripe painting paint the concrete pad area after completion. Contractor shall also stripe new fire lane red marking which will be shown during the site visit (15 cm thick, 60 meters length in total) Contractor shall submit the striping plan.

3D MODEL OF NEW CAR WASH STATION

2.21. Contractor shall provide combined car wash equipment with specifications at below in a prefabricated (Barjet or approved equal).

- **Wash & Jet Foam & Quick Polish:**

Washing Pressure: 30 - 250 bar

Jet Foam Tank Volume: 90 Lt Chrome

Jet Foam Engine: 1.1 kW

Jet Foam Pump: 8 Lt, 100 Bar

Pump Type: Ceramic Piston Pump

Water Volume: 450-900 Lt/Hr

Engine Power: 5,5 kw / 7.5 hp

Voltage: 3Ph/ 400V/ 50 Hz

Tank Volume: 500 Lt

High Pressure Hose: Min. 15 Meters c/w trigger gun (Dunlop or approved equal)

Foam Hose: Min. 15 meters c/w trigger gun

Washing system shall have its own water filtering system.

- **Quick Polish System polishing c/w attachments**

Vacuum:

Motor: 3 EA

Vacuum: 3000 Watt

Voltage: 220 V

Capacity: 60 Liters (Wet and Dry)

Vacuum Hose (5 Meters with spring to be hanged from ceiling)

2.22. Contractor shall prepare a foundation for combined car wash station c/w all underground piping for power connections.

2.23. Contractor shall install 3 EA (1 EA for high pressure water and other one for foam and 1 EA for quick polish) 360 Degree Boom which are going to be mounted to steel structure with proper length of hose with its bucket.

2.24. Contractor shall have a control panel outside of the washing equipment container for wash, jet foam, quick polish and vacuum. ON/OFF positions shall be marked/labeled with a steel plate.

2.25. Contractor shall install exhaust fans for combined wash station and wall panels of combined wash station shall be PIR type sandwich panels.

2.26. Contractor shall install an air/water meter with digital display panel with below specifications.

- Heavy Duty (*H.D.) Stainless Steel Cabinet with removable door
- Digital Display Panel
- Compressor Separate from Wash Station and able to provide max 200 psi pressure
- Solid Brass Free Flow Valve
- Cut Resistant Steel Braid Air Hose
- Tire Inflator with Built-in Gauge
- H.D. Hose Hanger
- High Security Plug Lock with 2 keys
- 20 AMP ON/OFF Switch
- Removable Control Panel Bracket
- Automatic Start
- Air filtered
- Fade Resistant Decal Set
- Fully Assembled - Ready to Install
- Water Kit, H.D. Radiator Faucet, H.D. Brass Water Valve
- Reel Cabinet Made of solid stainless steel or painted steel
- Signs as Air/Water and Hava/Su

2.27. Contractor shall use existing feeding cable which is already feeding existing car wash equipment.

2.28. Contractor shall furnish, deliver, install, and connect LED lighting fixtures complete with wiring and commissioning for new canopy c/w wiring and EMT conduit in accordance with latest UFC 3-530-01 and NFPA 70. LED lights shall be rated for outdoor use and time-relay shall be installed for canopy. Nearest power feeder cable tie-in point is 20 meters distance for each canopy. Contractor shall use the same tie-in point for adjacent canopies. Contractor shall provide lighting calculation for new lighting system in accordance with latest UFC 3-530-01. Contractor shall provide and install lighting system complete with LED and light switches complete with new wiring in accordance with latest UFC 3-530-01, NFPA 70.

2.29. Contractor shall provide lighting calculation for new lighting system in accordance with latest UFC 3-530-01.

2.30. Contractor shall ensure power cables to new installation include neutral grounded at source and equipment grounding conductor extended from source. Supplemental bonding connections shall be made from equipment grounding bus in outdoor panels to outdoor grounding electrode installation (report mentions foundation grounds). Outdoor metal structures shall be bonded to a supplemental grounding electrode connection.

2.31. Contractor shall provide and install 1 EA power panel (exterior type), complete with new grounding, surge protection devices and power meters in accordance with UFC 3-520-01 and NFPA 70 to provide power for car washing equipment.

2.32. "Weatherproof in use" receptacle boxes and covers shall be provided in all exposed outdoor installations.

2.33. Ground Fault Circuit Protection (or equivalent RCD protection) shall be provided for all outdoor receptacles and circuits.

2.34. Contractor shall provide an exterior sign as "Car Wash Station" on a chrome plate and interior signs for user instructions.

2.35. Contractor shall repaint all striping and mark washing station. Contractor shall design and apply road paint at a minimum rate of 12 to 14 mils thick, or 3m²/liter, IAW AFI 32-1042. Thinner may be added, in accordance with manufacturer's recommendation, to achieve above application rate. Glass bead is not required.

2.36. New layout plan is for reference-only, it is the contractors' responsibility to identify new unit's dimensions and exact locations based on reference standards and guides for proper new construction.

2.37. The Contractor shall provide engineers, quantity surveyors, and construction personnel as needed to complete the services that meet the technical requirements in this Statement of Work (SOW). It is expected that the Contractor shall partner closely with Consulate personnel.

3. General Requirement

The cost of any materials or equipment required in conjunction with the services rendered here in shall be included in the proposed firm fixed – price.

The scope of this work may require the protection and/or relocation of existing fixtures, utility, etc.

The performance schedule shall be presented in the MS Project Gantt Chart, indicating commencement and completion of the entire project within the proposed contract completion schedule. The schedule shall be in sufficient detail to clearly show each segregate portion of work and its planned commencement and completion date.

The Contractor shall at all times keep the work area free from accumulation of waste materials. Upon completing construction, the Contractor shall remove all temporary facilities and leave the project site in a clean and orderly condition acceptable to the COR.

4. Contract Administration

This is a firm fixed-price contract payable entirely in the currency indicated by the Contractor in contract. No additional sums will be payable on account of any escalation in the cost of materials, equipment or labor, or because of the Contractor's failure to properly estimate or accurately predict the cost or difficulty of achieving the results required by this contract. Changes in the contract price or time to complete will be made only due to changes made by the Government in the work to be performed, or delays caused by the Government as determined by and approved by the Contracting Officer (CO).

The Contractor shall not conduct any work that is beyond this Statement of Work unless directed in writing by the CO. Any work done by the Contractor beyond this SOW without direction from the CO will be at the Contractor's own risk and at no cost to the Consulate.

The Contracting Officer shall provide a Notice to Proceed (NTP) to the Contractor. No work shall be initiated until the NTP is issued by the CO.

The Contracting Officer may designate more than one individual to serve as the Contracting Officer's Representative (COR). The Contractor will be furnished evidence of COR appointments, including explicit authority delegated to each COR and their responsibilities.

The Consulate does not make representations or warranties of whatsoever kind or nature, either expressed or implied, as to the quality, level of completion, accuracy, extent of compliance with the standards, codes and requirements described or referred to in this SOW, or the extent of coordination between or among the documents provided to the Contractor.

The Contracting Officer has the authority to issue a temporary stop order during the execution of any phase of this SOW. The Contractor shall promptly notify the CO that work has been stopped.

In the event the Contractor, after receiving written notice from the CO of noncompliance with any requirement of this contract, fails to initiate promptly such action as may be appropriate to comply with the specified requirement within a reasonable period of time, the CO shall have the right to order the Contractor to suspend any or all work under the contract until the Contractor has complied or has initiated such action as may be appropriate to comply within a reasonable period of time. The Contractor will not be entitled to any extension of contract time or payment for any costs incurred because of being ordered to stop work such a cause.

If any of the Contractor's services do not conform to the contract requirements, the COR may require the Contractor to perform the services again in conformity with the contract requirements. The Consulate may by contract or otherwise, perform the services and charge the Contractor any cost incurred by the Consulate that is directly related to the performance of such service or terminate the contract for default.

The Consulate has the right to terminate this contract of convenience at any Phase in whole, or from time to time, if the Contracting Officer determines it is in the interest of the Consulate.

5. Responsibility of the Contractor

The Contractor shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, construction, and other services furnished under this contract. The Contractor shall, without additional compensation, correct or revise any errors or deficiencies in its designs, drawings, specifications, construction, and other services.

The Contractor shall identify a English speaking Project Site Manager who shall be responsible for the overall management of the Construction Documents and shall represent the Contractor on the site during construction. The Project Site Manager shall be approved by the COR.

All documentation produced for this project will become the ownership of the Consulate at the completion of this project.

The Contractor shall verify that all materials, equipment, and systems provide operational dependability. The Contractor shall assure that the project is designed and constructed to be easily maintained or replaced with readily available materials and services. Emphasis shall be placed on the compatibility of materials to maximize uniformity.

Any cost associated with services subcontracted by the Contractor shall be borne by and be the complete responsibility of the Contractor under the fixed price of this contract.

The Contractor is responsible for safety and shall comply with all local labor laws, regulations, customs, and practices pertaining to labor, safety, and similar matters. The Contractor shall promptly report all accidents resulting in lost time, disabling, or fatal injuries to the COR.

The Contractor shall be and remain liable to the Embassy in accordance with applicable law for all damages to the Embassy caused by the Contractor's negligent performance of any of the services furnished under this contract. The rights and remedies for the Embassy provided for under this contract are in addition to any other rights and remedies provided by law.

6. Work Standards and Qualifications

This Statement of Work requires the awarded contractor to provide qualified tradesmen to accomplish each varying trade discipline requirements.

7. Warranty

The contractor shall provide 2 years warranty for the car wash equipment and one year warranty for concrete and steel structure which will start upon date of invoice that covers all fence installation finishes that the contractor must correct at no additional cost any discrepancies of workmanship, or discrepancies caused by product or application.

8. Site Preparation and Cleaning Up

The Contractor shall always keep the work area, including storage areas, free from accumulations of waste materials. Before completing the work, the Contractor shall remove the work and premises any rubbish, tools, scaffolding, equipment, and materials that are not the property of the Government. Unsightly materials and debris including excess materials, garbage, and equipment should be removed as required; while materials should be scheduled for delivery only as required for immediate use.

9. Security Requirements

Upon award of contract, the contractor must furnish details of all staff that will be onsite. The details will be inclusive of:

a) Full Name

The US Consulate reserves the right to refuse entry to any or all contractor personnel. Each contractor personnel must have a valid identity card. Access to the residences will only be by prior, approved schedule and escort by Facilities representative.

b) Filled and signed visitor screening check list

Please see attachment #4

10. Hours of Work

The work will have to be scheduled for normal working hours on *Monday – Friday 08.30 – 16.30*. Work may be scheduled for after hours or weekend on a need to basis.

11. Utilities

The contractor will have access to water and electricity on site.

12. Safety

Safety is the highest priority on this, and all US Consulate contracts. The contractor shall direct all of those under his charge to work safely. All safety rules and regulations, local, State Department and the Army Corps of Engineers (see manual EM – 385-1-1) must be followed during the construction. The US Consulate reserves the right to stop and/or remove from site contractor personnel who fail to comply with relevant OSHA requirements. The contractor shall ensure and maintain the site is clean and rubbish removed upon completion of installation and commissioning.

C. PACKAGING AND MARKING

Mark materials delivered to the site as follows:

Yuregir, Adana

U.S. Consulate Adana

Guzelevler Mah. Girne Bulvari No.212

D. INSPECTION AND ACCEPTANCE

The COR, or his/her authorized representatives, will inspect from time to time the services being performed and the supplies furnished to determine whether work is being performed in a satisfactory manner, and that all supplies are of acceptable quality and standards.

The Contractor shall be responsible for any countermeasures or corrective action, within the scope of this contract, which may be required by the Contracting Officer as a result of such inspection.

D.1 SUBSTANTIAL COMPLETION

(a) "*Substantial Completion*" means the stage in the progress of the work as determined and certified by the Contracting Officer in writing to the Contractor, on which the work (or a portion designated by the Government) is sufficiently complete and satisfactory. Substantial completion means that the property may be occupied or used for the purpose for which it is intended, and only minor items such as touch-up, adjustments, and minor replacements or installations remain to be completed or corrected which:

- (1) do not interfere with the intended occupancy or utilization of the work, and
- (2) can be completed or corrected within the time period required for final completion.

(b) The "date of substantial completion" means the date determined by the Contracting Officer or authorized Government representative as of which substantial completion of the work has been achieved.

Use and Possession upon Substantial Completion - The Government shall have the right to take possession of and use the work upon substantial completion. Upon notice by the Contractor that the work is substantially complete (a Request for Substantial Completion) and an inspection by the Contracting Officer or an authorized Government representative (including any required tests), the Contracting Officer shall furnish the Contractor a Certificate of Substantial Completion. The certificate will be accompanied by a Schedule of Defects listing items of work remaining to be performed, completed or corrected before final completion and acceptance. Failure of the Contracting Officer to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The Government's possession or use upon substantial completion shall not be deemed an acceptance of any work under the contract.

D.2 FINAL COMPLETION AND ACCEPTANCE

D.2.1 "Final completion and acceptance" means the stage in the progress of the work as determined by the Contracting Officer and confirmed in writing to the Contractor, at which all work required under the contract has been completed in a satisfactory manner, subject to the discovery of defects after final completion, and except for items specifically excluded in the notice of final acceptance.

D.2.2 The "*date of final completion and acceptance*" means the date determined by the Contracting Officer when final completion of the work has been achieved, as indicated by written notice to the Contractor.

D.2.3 FINAL INSPECTION AND TESTS. The Contractor shall give the Contracting Officer at least five (5) days advance written notice of the date when the work will be fully completed and ready for final inspection and tests. Final inspection and tests will be started not later than the date specified in the notice unless the Contracting Officer determines that the work is not ready for final inspection and so informs the Contractor.

D.2.4 FINAL ACCEPTANCE. If the Contracting Officer is satisfied that the work under the contract is complete (with the exception of continuing obligations), the Contracting Officer shall issue to the Contractor a notice of final acceptance and make final payment upon:

- Satisfactory completion of all required tests,
- A final inspection that all items by the Contracting Officer listed in the Schedule of Defects have been completed or corrected and that the work is finally complete (subject to the discovery of defects after final completion), and
 - Submittal by the Contractor of all documents and other items required upon completion of the work, including a final request for payment (Request for Final Acceptance).

E. DELIVERIES OR PERFORMANCE

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to:

- (a) commence work under this contract within **60** calendar days **after OBO permit is received as stated in the SOW**,
- (b) prosecute the work diligently, and,
- (c) complete the entire work ready for use not later than **75 calendar days in total after OBO permit is received, (15 days prior to NTP, 60 days after the NTP). NTP will be issued after OBO permit is received.**

The time stated for completion shall include final cleanup of the premises.

52.211-12 LIQUIDATED DAMAGES - CONSTRUCTION (SEPT 2000)

(a) If the Contractor fails to complete the work within the time specified in the contract, or any extension, the Contractor shall pay liquidated damages to the Government in the amount of **\$116.66** for each calendar day of delay until the work is completed or accepted.

(b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Default clause.

CONTRACTOR'S SUBMISSION OF CONSTRUCTION SCHEDULES

(a) The time for submission of the schedules referenced in FAR 52.236-15, "Schedules for Construction Contracts", paragraph (a), is hereby modified to reflect the due date for submission as **7** calendar days after receipt of an executed contract".

(b) These schedules shall include the time by which shop drawings, product data, samples and other submittals required by the contract will be submitted for approval.

(c) The Contractor shall revise such schedules (1) to account for the actual progress of the work, (2) to reflect approved adjustments in the performance schedule, and (3) as required by the Contracting Officer to achieve coordination with work by the Government and any separate contractors used by the Government. The Contractor shall submit a schedule, which sequences work so as to minimize disruption at the job site.

(d) All deliverables shall be in the English language and any system of dimensions (English or metric) shown shall be consistent with that used in the contract. No extension of time shall be allowed due to delay by the Government in approving such deliverables if the Contractor has failed to act promptly and responsively in submitting its deliverables. The Contractor shall identify each deliverable as required by the contract.

(e) Acceptance of Schedule: When the Government has accepted any time schedule; it shall be binding upon the Contractor. The completion date is fixed and may be extended only by a written contract modification signed by the Contracting Officer. Acceptance or approval of any schedule or revision thereof by the Government shall not:

- (1) Extend the completion date or obligate the Government to do so,
- (2) Constitute acceptance or approval of any delay, or
- (3) Excuse the Contractor from or relieve the Contractor of its obligation to maintain the progress of the work and achieve final completion by the established completion date.

NOTICE OF DELAY

If the Contractor receives a notice of any change in the work, or if any other conditions arise which are likely to cause or are actually causing delays which the Contractor believes may result in late completion of the project, the Contractor shall notify the Contracting Officer.

The Contractor's notice shall state the effect, if any, of such change or other conditions upon the approved schedule, and shall state in what respects, if any, the relevant schedule or the completion date should be revised.

The Contractor shall give such notice promptly, not more than ten (10) days after the first event giving rise to the delay or prospective delay. Only the Contracting Officer may make revisions to the approved time schedule.

NOTICE TO PROCEED

The contractor shall submit final drawings to OBO (Overseas Building Operations) design office through Facility Maintenance and get final design approval for OBO Building Permit. NTP will be issued after OBO Building permit obtained. The contractor cannot claim any fee's against to Government for the process to obtain OBO Building Permit.

(a) After receiving and accepting any bonds or evidence of insurance, the Contracting Officer will provide the Contractor a Notice to Proceed. The Contractor must then prosecute the work, commencing and completing performance not later than the time period established in the contract.

(b) It is possible that the Contracting Officer may elect to issue the Notice to Proceed before receipt and acceptance of any bonds or evidence of insurance. Issuance of a Notice to Proceed by the Government before receipt of the required bonds or insurance certificates or policies shall not be a waiver of the requirement to furnish these documents.

WORKING HOURS

All work shall be performed during *from Monday to Friday at the hours of 8:30 until 16:30.*

Other hours, if requested by the Contractor, may be approved by the Contracting Officer's Representative (COR). The Contractor shall give 24 hours in advance to COR who will consider any deviation from the hours identified above. Changes in work hours, initiated by the Contractor, will not be a cause for a price increase.

F. ADMINISTRATIVE DATA

652.242-70 CONTRACTING OFFICER'S REPRESENTATIVE (COR) (AUG 1999)

(a) The Contracting Officer may designate in writing one or more Government employees, by name or position title, to take action for the Contracting Officer under this contract. Each designee shall be identified as a Contracting Officer's Representative (COR). Such designation(s) shall specify the scope and limitations of the authority so delegated; provided, that the designee shall not change the terms or conditions of the contract, unless the COR is a warranted Contracting Officer and this authority is delegated in the designation.

(b) The COR for this contract is **Rasim Can MAVRUK**.

Payment:

The Contractor's attention is directed to Section H, 52.232-5, "Payments Under Fixed-Price Construction Contracts". The following elaborates on the information contained in that clause.

Requests for payment, may be made no more frequently than monthly. Payment requests shall cover the value of labor and materials completed and in place, including a prorated portion of overhead and profit.

After receipt of the Contractor's request for payment, and on the basis of an inspection of the work, the Contracting Officer shall make a determination as to the amount, which is then due. If the Contracting Officer does not approve payment of the full amount applied for, less the retainage allowed by in 52.232-5, the Contracting Officer shall advise the Contractor as to the reasons.

Under the authority of 52.232-27(a), the 14 day period identified in FAR 52.232-27(a)(1)(i)(A) is hereby changed to 30 days.

U.S. CONSULATE ADANA
Guzelevler Mah. Girne Bulvari No.212
Yuregir, Adana

G. SPECIAL REQUIREMENTS

G.1.0 PERFORMANCE/PAYMENT PROTECTION

The Contractor shall furnish some form of payment protection as described in 52.228-13 in the amount of 20% of the contract price.

G.1.1 The Contractor shall provide the information required by the paragraph above within ten (10) calendar days after award. Failure to timely submit the required security may

result in rescinding or termination of the contract by the Government. If the contract is terminated, the Contractor will be liable for those costs as described in FAR 52.249-10, Default (Fixed-Price Construction), which is included in this purchase order.

G.1.2 The bonds or alternate performance security shall guarantee the Contractor's execution and completion of the work within the contract time. This security shall also guarantee the correction of any defects after completion, the payment of all wages and other amounts payable by the Contractor under its subcontracts or for labor and materials, and the satisfaction or removal of any liens or encumbrances placed on the work.

G.1.3 The required securities shall remain in effect in the full amount required until final acceptance of the project by the Government. Upon final acceptance, the penal sum of the performance security shall be reduced to 10% of the contract price. The security shall remain in effect for one year after the date of final completion and acceptance, and the Contractor shall pay any premium required for the entire period of coverage.

G.2.0 INSURANCE - The Contractor is required by FAR 52.228-5, "Insurance - Work on a Government Installation" to provide whatever insurance is legally necessary. The Contractor shall at its own expense provide and maintain during the entire performance period the following insurance amounts:

G.2.1 GENERAL LIABILITY (includes premises/operations, collapse hazard, products, completed operations, contractual, independent contractors, broad form property damage, personal injury) :

(1) BODILY INJURY, ON OR OFF THE SITE, IN U.S. DOLLARS	
Per Occurrence	\$10.000,00 (The contractor has the full responsibility.)
Cumulative	\$20.000,00 (The contractor has the full responsibility.)
(2) PROPERTY DAMAGE, ON OR OFF THE SITE, IN U.S. DOLLARS	
Per Occurrence	\$10.000,00 (The contractor has the full responsibility.)
Cumulative	\$20.000,00 (The contractor has the full responsibility.)

G.2.2 The foregoing types and amounts of insurance are the minimums required. The Contractor shall obtain any other types of insurance required by local law or that are ordinarily or customarily obtained in the location of the work. The limit of such insurance shall be as provided by law or sufficient to meet normal and customary claims.

G.2.3 The Contractor agrees that the Government shall not be responsible for personal injuries or for damages to any property of the Contractor, its officers, agents, servants, and employees, or any other person, arising from and incident to the Contractor's performance of this contract. The Contractor shall hold harmless and indemnify the Government from any and all claims arising therefrom, except in the instance of gross negligence on the part of the

Government.

G.2.4 The Contractor shall obtain adequate insurance for damage to, or theft of, materials and equipment in insurance coverage for loose transit to the site or in storage on or off the site.

G.2.5 The general liability policy required of the Contractor shall name "the United States of America, acting by and through the Department of State", as an additional insured with respect to operations performed under this contract.

G.3.0 DOCUMENT DESCRIPTIONS

G.3.1 SUPPLEMENTAL DOCUMENTS: The Contracting Officer shall furnish from time to time such detailed drawings and other information as is considered necessary, in the opinion of the Contracting Officer, to interpret, clarify, supplement, or correct inconsistencies, errors or omissions in the Contract documents, or to describe minor changes in the work not involving an increase in the contract price or extension of the contract time. The Contractor shall comply with the requirements of the supplemental documents, and unless prompt objection is made by the Contractor within 20 days, their issuance shall not provide for any claim for an increase in the Contract price or an extension of contract time.

G.3.1.1. RECORD DOCUMENTS. The Contractor shall maintain at the project site:

- (1) a current marked set of Contract drawings and specifications indicating all interpretations and clarification, contract modifications, change orders, or any other departure from the contract requirements approved by the Contracting Officer; and,
- (2) a complete set of record shop drawings, product data, samples and other submittals as approved by the Contracting Officer.

G.3.1.2. "As-Built" Documents: After final completion of the work, but before final acceptance thereof, the Contractor shall provide:

- (1) a complete set of "as-built" drawings, based upon the record set of drawings, marked to show the details of construction as actually accomplished; and,
- (2) record shop drawings and other submittals, in the number and form as required by the specifications.

G.4.0 LAWS AND REGULATIONS - The Contractor shall, without additional expense to the Government, be responsible for complying with all laws, codes, ordinances, and regulations applicable to the performance of the work, including those of the host country, and with the lawful orders of any governmental authority having jurisdiction. Host country authorities may not enter the construction site without the permission of the Contracting Officer.

Unless otherwise directed by the Contracting Officer, the Contractor shall comply with the more stringent of the requirements of such laws, regulations and orders and of the contract. In the event of a conflict between the contract and such laws, regulations and orders, the Contractor shall promptly advise the Contracting Officer of the conflict and of the Contractor's proposed course of action for resolution by the Contracting Officer.

G.4.1 The Contractor shall comply with all local labor laws, regulations, customs and practices pertaining to labor, safety, and similar matters, to the extent that such compliance is not inconsistent with the requirements of this contract.

G.4.2 The Contractor shall give written assurance to the Contracting Officer that all subcontractors and others performing work on or for the project have obtained all requisite licenses and permits.

G.4.3 The Contractor shall submit proper documentation and evidence satisfactory to the Contracting Officer of compliance with this clause.

G.5.0 CONSTRUCTION PERSONNEL - The Contractor shall maintain discipline at the site and at all times take all reasonable precautions to prevent any unlawful, riotous, or disorderly conduct by or among those employed at the site. The Contractor shall ensure the preservation of peace and protection of persons and property in the neighborhood of the project against such action. The Contracting Officer may require, in writing that the Contractor remove from the work any employee that the Contracting Officer deems incompetent, careless, insubordinate or otherwise objectionable, or whose continued employment on the project is deemed by the Contracting Officer to be contrary to the Government's interests.

G.5.1 If the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor shall immediately give notice, including all relevant information, to the Contracting Officer.

G.5.2 After award, the Contractor has ten calendar days to submit to the Contracting Officer a list of workers and supervisors assigned to this project for the Government to conduct all necessary security checks. It is anticipated that security checks will take 7 days to perform. For each individual the list shall include:

- Full Name
- Place and Date of Birth
- Current Address
- Identification number
- Visitor Screening Check List

Failure to provide any of the above information may be considered grounds for rejection and/or resubmittal of the application. Once the Government has completed the security screening and approved the applicants a badge will be provided to the individual for access to the site. This

badge may be revoked at any time due to the falsification of data, or misconduct on site.

G.5.3 The Contractor shall provide an English-speaking supervisor on site at all times. This position is considered as key personnel under this purchase order.

G.6.0 MATERIALS AND EQUIPMENT - All materials and equipment incorporated into the work shall be new and for the purpose intended, unless otherwise specified. All workmanship shall be of good quality and performed in a skillful manner that will withstand inspection by the Contracting Officer.

G.7.0 SPECIAL WARRANTIES

G.7.1 Any special warranties that may be required under the contract shall be subject to the stipulations set forth in 52.246-21, "Warranty of Construction", as long as they are not in conflict.

G.7.2 The Contractor shall obtain and furnish to the Government all information required to make any subcontractor's, manufacturer's, or supplier's guarantee or warranty legally binding and effective. The Contractor shall submit both the information and the guarantee or warranty to the Government in sufficient time to permit the Government to meet any time limit specified in the guarantee or warranty, but not later than completion and acceptance of all work under this contract.

G.8.0 EQUITABLE ADJUSTMENTS

Any circumstance for which the contract provides an equitable adjustment that causes a change within the meaning of paragraph (a) of the "Changes" clause shall be treated as a change under that clause; provided, that the Contractor gives the Contracting Officer prompt written notice (within 20 days) stating:

- (a) the date, circumstances, and applicable contract clause authorizing an equitable adjustment and
- (b) that the Contractor regards the event as a changed condition for which an equitable adjustment is allowed under the contract

The Contractor shall provide written notice of a differing site condition within 10 calendar days of occurrence following FAR 52.236-2, Differing Site Conditions.

G.9.0 ZONING APPROVALS AND PERMITS

The Government shall be responsible for:

- obtaining proper zoning or other land use control approval for the project
- obtaining the approval of the Contracting Drawings and Specifications
- paying fees due for the foregoing; and,
- for obtaining and paying for the initial building permits.

I. FAR CLAUSES INCORPORATED IN FULL TEXT

- 52.204-25 PROHIBITION ON CONTRACTING FOR CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT (AUG 2020)

(a) Definitions. As used in this clause—

Covered foreign country means The People’s Republic of China.
Covered telecommunications equipment or services means—

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means—

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) Prohibition. Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in Federal Acquisition Regulation 4.2104.

(c) Exceptions. This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at <https://dibnet.dod.mil>. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at <https://dibnet.dod.mil>.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended.

In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (e), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

(End of clause)

II. The following Department of State Acquisition Regulation (DOSAR) clause(s) is/are set forth in full text:

652.204-70 DEPARTMENT OF STATE PERSONAL IDENTIFICATION CARD
ISSUANCE PROCEDURES (MAY 2011)

(a) The Contractor shall comply with the Department of State (DOS) Personal Identification Card Issuance Procedures for all employees performing under this contract who require frequent and continuing access to DOS facilities, or information systems. The Contractor shall insert this clause in all subcontracts when the subcontractor's employees will require frequent and continuing access to DOS facilities, or information systems.

(b) The DOS Personal Identification Card Issuance Procedures may be accessed at <http://www.state.gov/m/ds/rls/rpt/c21664.htm>.

(End of clause)

652.229-71 PERSONAL PROPERTY DISPOSITION AT POSTS ABROAD (AUG 1999)

Regulations at 22 CFR Part 136 require that U.S. Government employees and their families do not profit personally from sales or other transactions with persons who are not themselves entitled to exemption from import restrictions, duties, or taxes. Should the Contractor experience importation or tax privileges in a foreign country because of its contractual relationship to the United States Government, the Contractor shall observe the requirements of 22 CFR Part 136 and all policies, rules, and procedures issued by the chief of mission in that foreign country.

(End of clause)

CONTRACTOR IDENTIFICATION (JULY 2008)

Contract performance may require contractor personnel to attend meetings with government personnel and the public, work within government offices, and/or utilize government email.

Contractor personnel must take the following actions to identify themselves as non-federal employees:

- 1) Use an e-mail signature block that shows name, the office being supported and company affiliation (e.g. “John Smith, Office of Human Resources, ACME Corporation Support Contractor”);
- 2) Clearly identify themselves and their contractor affiliation in meetings;
- 3) Identify their contractor affiliation in Departmental e-mail and phone listings whenever contractor personnel are included in those listings; and
- 4) Contractor personnel may not utilize Department of State logos or indicia on business cards.

(End of clause)

652.236-70 ADDITIONAL SAFETY MEASURES (OCT 2017)

In addition to the safety/accident prevention requirements of FAR 52.236-13, Accident Prevention Alternate I, the contractor shall comply with the following additional safety measures.

(a) *High Risk Activities*. If the project contains any of the following high risk activities, the contractor shall follow the section in the latest edition, as of the date of the solicitation, of the U.S. Army Corps of Engineers Safety and Health manual, EM 385-1-1, that corresponds to the high risk activity. Before work may proceed, the contractor must obtain approval from the COR of the written safety plan required by FAR 52.236-13, Accident Prevention Alternate I (see paragraph (f) below), containing specific hazard mitigation and control techniques.

- (1) Scaffolding;
- (2) Work at heights above 1.8 meters;
- (3) Trenching or other excavation greater than one (1) meter in depth;
- (4) Earth-moving equipment and other large vehicles;
- (5) Cranes and rigging;
- (6) Welding or cutting and other hot work;
- (7) Partial or total demolition of a structure;
- (8) Temporary wiring, use of portable electric tools, or other recognized electrical hazards. Temporary wiring and portable electric tools require the use of a ground fault circuit interrupter (GFCI) in the affected circuits; other electrical hazards may also require the use of a GFCI;

(9) Work in confined spaces (limited exits, potential for oxygen less than 19.5 percent or combustible atmosphere, potential for solid or liquid engulfment, or other hazards considered to be immediately dangerous to life or health such as water tanks, transformer vaults, sewers, cisterns, etc.);

(10) Hazardous materials - a material with a physical or health hazard including but not limited to, flammable, explosive, corrosive, toxic, reactive or unstable, or any operations, which creates any kind of contamination inside an occupied building such as dust from demolition activities, paints, solvents, etc.; or

(11) Hazardous noise levels as required in EM 385-1 Section 5B or local standards if more restrictive.

(b) *Safety and Health Requirements.* The contractor and all subcontractors shall comply with the latest edition of the U.S. Army Corps of Engineers Safety and Health manual EM 385-1-1, or OSHA 29 CFR parts 1910 or 1926 if no EM 385-1-1 requirements are applicable, and the accepted contractor's written safety program.

(c) *Mishap Reporting.* The contractor is required to report **immediately** all mishaps to the COR and the contracting officer. A "mishap" is any event causing injury, disease or illness, death, material loss or property damage, or incident causing environmental contamination. The mishap reporting requirement shall include fires, explosions, hazardous materials contamination, and other similar incidents that may threaten people, property, and equipment.

(d) *Records.* The contractor shall maintain an accurate record on all mishaps incident to work performed under this contract resulting in death, traumatic injury, occupational disease, or damage to or theft of property, materials, supplies, or equipment. The contractor shall report this data in the manner prescribed by the contracting officer.

(e) *Subcontracts.* The contractor shall insert this clause, including this paragraph (e), with appropriate changes in the designation of the parties, in subcontracts.

(f) *Written program.* The plan required by paragraph (f)(1) of the clause entitled "Accident Prevention Alternate I" shall be known as the Site Safety and Health Plan (SSHP) and shall address any activities listed in paragraph (a) of this clause, or as otherwise required by the contracting officer/COR.

(1) The SSHP shall be submitted at least 10 working days prior to commencing any activity at the site.

(2) The plan must address developing activity hazard analyses (AHAs) for specific tasks. The AHAs shall define the activities being performed and identify the work sequences, the specific anticipated hazards, site conditions, equipment, materials, and the control measures to be implemented to eliminate or reduce each hazard to an acceptable level of risk. Work shall not begin until the AHA for the work activity has been accepted by the COR and discussed with

all engaged in the activity, including the Contractor, subcontractor(s), and Government on-site representatives.

(3) The names of the Competent/Qualified Person(s) required for a particular activity (for example, excavations, scaffolding, fall protection, other activities as specified by EM 385-1-1) shall be identified and included in the AHA. Proof of their competency/qualification shall be submitted to the contracting officer or COR for acceptance prior to the start of that work activity. The AHA shall be reviewed and modified as necessary to address changing site conditions, operations, or change of competent/qualified person(s).

(End of clause)

652.242-73 AUTHORIZATION AND PERFORMANCE (AUG 1999)

(a) The Contractor warrants the following:

(1) That it has obtained authorization to operate and do business in the country or countries in which this contract will be performed;

(2) That it has obtained all necessary licenses and permits required to perform this contract; and,

(3) That it shall comply fully with all laws, decrees, labor standards, and regulations of said country or countries during the performance of this contract.

(b) If the party actually performing the work will be a subcontractor or joint venture partner, then such subcontractor or joint venture partner agrees to the requirements of paragraph (a) of this clause.

(End of clause)

652.243-70 NOTICES (AUG 1999)

Any notice or request relating to this contract given by either party to the other shall be in writing. Said notice or request shall be mailed or delivered by hand to the other party at the address provided in the schedule of the contract. All modifications to the contract must be made in writing by the Contracting Officer.

E. LATE QUOTATIONS

Late quotations shall be handled in accordance with FAR.

**F. 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE
(FEB 1998)**

This contract incorporates the following provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer.

Also, the full text of a solicitation provision may be accessed electronically at: <http://acquisition.gov/far/index.html> or <http://farsite.hill.af.mil/vffara.htm>. Please note these addresses are subject to change.

If the Federal Acquisition Regulation (FAR) is not available at the locations indicated above, use the Department of State Acquisition website at <http://www.statebuy.state.gov> to access the link to the FAR, or use of an Internet "search engine" (for example, Google, Yahoo or Excite) is suggested to obtain the latest location of the most current FAR.

The following Federal Acquisition Regulation provisions are incorporated by reference (48 CFR CH. 1):

<u>PROVISION</u>	<u>TITLE AND DATE</u>
52.204-7	SYSTEM FOR AWARD MANAGEMENT (OCT 2018)
52.204-16	COMMERCIAL AND GOVERNMENT ENTITY CODE REPORTING (JUL 2016)
52.214-34	SUBMISSION OF OFFERS IN THE ENGLISH LANGUAGE (APR 1991)
52.215-1	INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION (JAN 2004)

K. EVALUATION CRITERIA

Award will be made to the lowest priced, acceptable, responsible quoter. The Government reserves the right to reject quotations that are unreasonably low or high in price.

The Government will determine acceptability by assessing the offeror's compliance with the terms of the RFQ. The Government will determine responsibility by analyzing whether the apparent successful quoter complies with the requirements of FAR 9.1, including:

- ability to comply with the required performance period, taking into consideration all existing commercial and governmental business commitments;
- satisfactory record of integrity and business ethics;
- necessary organization, experience, and skills or the ability to obtain them;
- necessary equipment and facilities or the ability to obtain them; and
- otherwise, qualified and eligible to receive an award under applicable laws and regulations.

Technical Evaluation Factors

1. **Quality Control:** Contractor shall provide information that effectively represents their quality control program and methodology. The offeror's quality control plan and methodology shall meet or exceed commercial standards routinely used by the construction industry for same or similar projects. Any innovative procedures or methods shall be explained in detail. This information shall provide the Government with *no doubt* of the offeror's contract management and process improvement abilities.
2. **Technical Capabilities:** The offeror shall provide information that effectively represents their technical expertise and project management capabilities. All techniques and resources shall meet or exceed commercial standards routinely used by the construction industry for same or similar projects. Any innovative procedures or methods shall be explained in detail. As a minimum, offerors shall include:
 - a. A narrative to demonstrate a sound approach and methodology for accomplishing work requirements identified in the solicitation with the appropriate skills, equipment, and materials, in the appropriate quantities, and at the appropriate time to meet the Government's desired outcomes. Each offeror shall also submit their proposed work plan for the major elements of the project as listed below. The narrative and materials submittal shall provide the Government with *no doubt* of the offeror's abilities to manage all resources required to perform the requirements outlined in this solicitation. The offeror's proposed material listing shall be incorporated into any resultant contract. (Max. 5 Pages)
 - b. Documentation, the list of key personnel and accompanying resumes will be evaluated for completeness to determine if all key personnel identified have the technical and educational background, relevant job experience and qualifications to perform the work requirements of this project. Documentation (resume,

references), indicating that the site architect/civil engineer assigned to this project has a minimum of five years of experience. This engineer must be able to speak English and will be required to be present at the job site at all times when work is in progress.

- c. Catalogue Data for PIR panels
 - d. Catalogue Data for Water/Air Meter
 - e. Catalogue Data of Car Wash Station Combined Unit c/w all attachments
3. A progress schedule for all major construction elements of this project based upon the offeror's proposed performance period. All milestones and any phasing shall be annotated with proposed actual dates in a format as a Gantt chart (e.g. MS Project, or equal). The offeror's proposed performance period shall not exceed the performance period outlined in SF 1442, block 11. Offeror shall explain what he will do to minimize the period of performance (e.g. increase crew size and/or number of crews, etc.)
4. Provide safety plan and safety equipment list. (Maximum 10 pages)

**SECTION L - REPRESENTATIONS, CERTIFICATIONS AND
OTHER STATEMENTS OF OFFERORS OR QUOTERS**

L.1 52.204-3 TAXPAYER IDENTIFICATION (OCT 1998)

(a) Definitions.

"Common parent", as used in this provision, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the offeror is a member.

"Taxpayer Identification Number (TIN)", as used in this provision, means the number required by the IRS to be used by the offeror in reporting income tax and other returns. The TIN may be either a Social Security Number or an Employer Identification Number.

(a) (1) The North American Industry Classification System (NAICS) code for this acquisition is 236118, 236220, 237110, 237310, 237990.

(2) The small business size standard is **\$36.5 Million USD**.

(3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

(b) (1) If the provision at [52.204-7](#), System for Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at [52.204-7](#), System for Award Management, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

(i) Paragraph (d) applies.

(ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c)

(1) The following representations or certifications in SAM are applicable to this solicitation as indicated:

(i) [52.203-2](#), Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in [part 13](#);

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) [52.203-11](#), Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) [52.203-18](#), Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements-Representation. This provision applies to all solicitations.

(iv) [52.204-3](#), Taxpayer Identification. This provision applies to solicitations that do not include the provision at [52.204-7](#), System for Award Management.

(v) [52.204-5](#), Women-Owned Business (Other Than Small Business). This provision applies to solicitations that-

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

(C) Are for contracts that will be performed in the United States or its outlying areas.

(vi) [52.204-26](#), Covered Telecommunications Equipment or Services-Representation. This provision applies to all solicitations.

(vii) [52.209-2](#), Prohibition on Contracting with Inverted Domestic Corporations-Representation.

(viii) [52.209-5](#), Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(ix) [52.209-11](#), Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law. This provision applies to all solicitations.

(x) [52.214-14](#), Place of Performance-Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.

(xi) [52.215-6](#), Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.

(xii) [52.219-1](#), Small Business Program Representations (Basic, Alternates I, and II). This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.

(A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.

(B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.

(C) The provision with its Alternate II applies to solicitations that will result in a multiple-award contract with more than one NAICS code assigned.

(xiii) [52.219-2](#), Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.

(xiv) [52.222-22](#), Previous Contracts and Compliance Reports. This provision applies to solicitations that include the clause at [52.222-26](#), Equal Opportunity.

(xv) [52.222-25](#), Affirmative Action Compliance. This provision applies to solicitations, other than those for construction, when the solicitation includes the clause at [52.222-26](#), Equal Opportunity.

(xvi) [52.222-38](#), Compliance with Veterans' Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial items.

(xvii) [52.223-1](#), Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of USDA–designated items; or include the clause at [52.223-2](#), Affirmative Procurement of Biobased Products Under Service and Construction Contracts.

(xviii) [52.223-4](#), Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA–designated items.

(xix) [52.223-22](#), Public Disclosure of Greenhouse Gas Emissions and Reduction Goals-Representation. This provision applies to solicitations that include the clause at [52.204-7](#).)

(xx) [52.225-2](#), Buy American Certificate. This provision applies to solicitations containing the clause at [52.225-1](#).

(xxi) [52.225-4](#), Buy American-Free Trade Agreements-Israeli Trade Act Certificate. (Basic, Alternates I, II, and III.) This provision applies to solicitations containing the clause at [52.225-3](#).

(A) If the acquisition value is less than \$25,000, the basic provision applies.

(B) If the acquisition value is \$25,000 or more but is less than \$50,000, the provision with its Alternate I applies.

(C) If the acquisition value is \$50,000 or more but is less than \$83,099, the provision with its Alternate II applies.

(D) If the acquisition value is \$83,099 or more but is less than \$100,000, the provision with its Alternate III applies.

(xxii) [52.225-6](#), Trade Agreements Certificate. This provision applies to solicitations containing the clause at [52.225-5](#).

(xxiii) [52.225-20](#), Prohibition on Conducting Restricted Business Operations in Sudan-Certification. This provision applies to all solicitations.

(xxiv) [52.225-25](#), Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran-Representation and Certifications. This provision applies to all solicitations.

(xxv) [52.226-2](#), Historically Black College or University and Minority Institution Representation. This provision applies to solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions.

(2) The following representations or certifications are applicable as indicated by the Contracting Officer:

[Contracting Officer check as appropriate.]

- (i) [52.204-17](#), Ownership or Control of Offeror.
- (ii) [52.204-20](#), Predecessor of Offeror.
- (iii) [52.222-18](#), Certification Regarding Knowledge of Child Labor for Listed End Products.

L.3 52.204–24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (OCT 2020).

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the offeror has represented that it “does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument” in paragraph (c)(1) in the provision at 52.204–26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212–3, Offeror Representations and Certifications—Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it “does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services” in paragraph (c)(2) of the provision at 52.204–26, or in paragraph (v)(2)(ii) of the provision at 52.212–3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause [52.204-25](#), Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition.*

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for “covered telecommunications equipment or services”.

(d) *Representation.* The Offeror represents that—

(1) It will, will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information

required at paragraph (e)(1) of this section if the Offeror responds “will” in paragraph (d)(1) of this section; and

(2)After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It does, does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds “does” in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded “will” in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer:

(i)For covered equipment—

(A)The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B)A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C)Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii)For covered services—

(A)If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B)If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded “does” in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

L.4. 52.209-2 PROHIBITION ON CONTRACTING WITH INVERTED DOMESTIC CORPORATIONS REPRESENTATION (NOV 2015)

(a) Definitions. “Inverted domestic corporation” and “subsidiary” have the meaning given in the clause of this contract entitled Prohibition on Contracting with Inverted Domestic Corporations ([52.209-10](#)).

(b) Government agencies are not permitted to use appropriated (or otherwise made available) funds for contracts with either an inverted domestic corporation, or a subsidiary of an inverted

domestic corporation, unless the exception at [9.108-2\(b\)](#) applies or the requirement is waived in accordance with the procedures at [9.108-4](#).

(c) Representation. The Offeror represents that.

- (1) It is, is not an inverted domestic corporation; and
- (2) It is, is not a subsidiary of an inverted domestic corporation.

L.5. 52.225-18 PLACE OF MANUFACTURE (SEPT 2006)

(a) *Definitions.* As used in this clause—

“Manufactured end product” means any end product in Federal Supply Classes (FSC) 1000-9999, except—

- (1) FSC 5510, Lumber and Related Basic Wood Materials;
- (2) Federal Supply Group (FSG) 87, Agricultural Supplies;
- (3) FSG 88, Live Animals;
- (4) FSG 89, Food and Related Consumables;
- (5) FSC 9410, Crude Grades of Plant Materials;
- (6) FSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) FSC 9440, Miscellaneous Crude Agricultural and Forestry Products;
- (8) FSC 9610, Ores;
- (9) FSC 9620, Minerals, Natural and Synthetic; and
- (10) FSC 9630, Additive Metal Materials.

“Place of manufacture” means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(b) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

- (1) In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or
- (2) Outside the United States.

(End of provision)

L.7 52.225-20 PROHIBITION ON CONDUCTING RESTRICTED BUSINESS OPERATIONS IN SUDAN – CERTIFICATION (AUG 2009)

(a) *Definitions.* As used in this provision—

“Business operations” means engaging in commerce in any form, including by acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other apparatus of business or commerce.

“Marginalized populations of Sudan” means—

(1) Adversely affected groups in regions authorized to receive assistance under section 8(c) of the Darfur Peace and Accountability Act (Pub. L. 109-344) (50 U.S.C. 1701 note); and

(2) Marginalized areas in Northern Sudan described in section 4(9) of such Act.

“Restricted business operations” means business operations in Sudan that include power production activities, mineral extraction activities, oil-related activities, or the production of military equipment, as those terms are defined in the Sudan Accountability and Divestment Act of 2007 (Pub. L. 110-174). Restricted business operations do not include business operations that the person conducting the business can demonstrate—

(1) Are conducted under contract directly and exclusively with the regional government of southern Sudan;

(2) Are conducted pursuant to specific authorization from the Office of Foreign Assets Control in the Department of the Treasury, or are expressly exempted under Federal law from the requirement to be conducted under such authorization;

(3) Consist of providing goods or services to marginalized populations of Sudan;

(4) Consist of providing goods or services to an internationally recognized peacekeeping force or humanitarian organization;

(5) Consist of providing goods or services that are used only to promote health or education; or

(6) Have been voluntarily suspended.

(b) *Certification.* By submission of its offer, the offeror certifies that it does not conduct any restricted business operations in Sudan.
